The bar chart illustrates the number of patients with different lengths of asymptomatic periods, categorized by surgery success.

- **< 36 days**
  - Surgery: 9
  - Success: 0
- **> 36 days**
  - Surgery: 25
  - Success: 31

The x-axis represents the length of asymptomatic period, with categories for < 36 days and > 36 days. The y-axis indicates the number of patients, ranging from 0 to 35.
